

**BIGGEST
EVER ISSUE
NOT TO BE
MISSED!**

What about all the attention he gets from female fans?

It's absolutely fine, I don't mind. I don't really come into contact with it because it normally happens when he's on his own or with friends. It's nice that people find my husband attractive.

Do you receive a lot of fan mail, Gavin?

We do get quite a bit sent in. The funniest one I saw was when someone had sent a picture in to get their house made over and it was a girl draped around a stripper's pole in her living room.

'A couple of times people have had a grievance but nothing serious'

Do you have any dreams to design?

I think there are enough designers out there at the moment without adding my name to the list. I had the chance to design and make my own stuff and it went down very well and I really enjoyed doing it. It was very busy but it was well-received.

Has anyone ever hated what you've done?

We've never had anyone unhappy with us. A couple of times people have maybe had a grievance, but nothing serious. We always chat to people beforehand to find out what they like and dislike. It's a lot to do in one day so we make sure that whatever we do, we do well.

With all these presenting roles under your tool belt, what's next for you?

I've done some directing and I really enjoyed it, so that's one way I might go. The presenting side is very enjoyable, if I didn't like it I wouldn't do it. I think you can tell lives watching the show that I enjoy it. We'll wait and see what happens. I'm ambitious but I don't need his fight for it. I've been busy for ages now and long may it continue.
